50p COIN IN THE BOTT... COIN TRICK 50 PENCE
New

COIN IN BOTTLE / FOLDING COIN

A spectator is handed a regular bottle to examine. Next, a coin is borrowed and magically made to penetrate through the bottom of the solid bottle! The bottle is then turned upside down to show that the coin does not fit through its neck. But when the magician shakes the bottle, the coin falls out of it! The coin is then returned to the spectator, and everything can be examined!

Secretly insert the folded coin in the neck of the bottle which should be a green or brown one, after examining the bottle by the spectator. Have the spectator hold the bottle horizontally before him, his right hand holding the neck and his left hand the bottom of the bottle.

Show the borrowed coin in your right hand, holding it at the finger tips by the very edge. Strike the coin against the middle of the bottle counting "ONE, TWO, THREE". On the third strike palm the coin, at the same time with your left elbow jostle the spectator's right elbow, forcing the neck of the bottle upward and the folded coin falls into the bottle, expanding immediately to full size.

Immediately take the bottle in your right hand where you have the real coin concealed, pressing the coin against the label and thus hiding it with a natural action. Shake the bottle, jingling the coin and showing that it is inside. Finally tip the bottle up and shake it so that the coin falls into the left hand and at the same instant drop the coin from the right hand to the floor. Place the bottle down, pick up the coin and at the same time quietly pocket the folding coin.

5 replacement bands are provided with each pack in order to replace the broken bands. In case the coin gets broken, simply take one of the extra band and carefully put it on the grooves on the side of the coin. Here is youtube link on how to: <https://youtu.be/xKh2pPz2jwY>
